WANTS RECEIVER DISMISSED.

Man Who Is Charged With Fraudulently Using Mails Seeks Injunction.

Philadelphia, April 8.—Counsel representing Stanley Francis, who is in prison [illegible] $10,000 bail, charged with using the mails to defraud, presented a petition in the United States District court today for a rule to vacate the receivership by which the property of Francis has been attached in the interest of creditors of the Providence Investment bureau. In presenting the petition, the counsel argued that the property of Francis had been attached without due process of law, and without a hearing. Counsel added that Francis was arrest for his connection with the Storey Cotton company and therefore should not be included in the receivership proceedings instituted against Frank C. Marrin and W. H. Lattimer, who were at the head of the investment bureau and who were now fugitives from justice.

Counsel for J. Hector McNeal opposed the granting of the petition, saying that Francis carried on a fraudulent business through the mails together with Lattimer and Marrin, and that in the interest of the creditors of the Provident Investment bureau, the property should be held by the receiver. The counsel said he did not propose to let the assets get into the hands of the promoters, where it "would disappear."

NONUNIONISTS ARE ATTACKED.

Plant Which Employes Them Destroyed by Flames.

Chicago, April 7.—Following by only a few hours a vicious attack by union pickets in two employes of the Art Bedstead company, the plant of that concern at Thirty-seventh Place and Rockwell street, has been ravaged by fire, causing a loss estimated at $100,000.

For four weeks a strike has been on at the plant, and nonunion workmen frequently have been harassed by pickets.

The blaze started with a series of explosions in the shellac department. The first blast hurled the watchman, George Hardy, and Matthew Grinaik across a room adjoining the shellac department, painfully bruising both.

A few hours before the fire started a dozen men who had been watching the plant attacked Peter and Problus Andrews, brothers who are employed by the concern.

Both men were knocked down, kicked and beaten, and were unconscious when the police arrived. The assailants escaped.

INSURANCE MAN DISAPPEARS.

His Accounts Are All Right and His Disappearance Is a Mystery.

New York, April 8.—The World today says:

After writing and mailing an endearing letter to his wife, Floyd E. Rock of Malone, N. Y., district manager for northern New York of the Washington Life Insurance company, disappeared on Sunday from the Empire Hotel, and has not been seen since.

In the letter to his wife he said that he intended to go through Chinatown and the slums Sunday night as he had never seen the sights there. Rock had with him when he left Malone Saturday to make his monthly report to the head office here $4,130. The state manager of the company, S. H. Heard, together with the missing man's father, A. F. Rock, have instituted a search. The police so far have ebeen unable to get any trace of Rock in Chinatown. State Manager Heard said last night:

"Rock's acount with the company is correct in every detail."

Smiths Treated as Guests

Cincinnati, April 8.—By order of District Attorney Jerome, of New York, J. Morgan Smith and wife, who are in the county jail here pending the result of the contest over their extradition to New York, under a conspiracy indictment there, have been placed on the list of guests instead of prisoners at the jail. They are still detained under arrest, but they are to have the best food the market affords, and otherwise be allowed everything to which they have been accustomed except their liberty.

SAN ANTONIO GIVES PRESIDENT OVATION

Chief Executive Royally Greeted In Historic City.

"AMERICA" SUNG BY CHILDREN

President Roosevelt Reviews United States Troops Stationed There—He Is Escorted by Veterans Who Wore the Gray and the Blue.

San Antonio, April 8.—Never has such a patriotic demonstration been witnessed here as that which greeted President Roosevelt today upon his first visit to San Antonio since he organized the famous Rough Riders regiment in the spring of 1898. All of the principal business thoroughfares were aflutter with flags and bunting and the president's picture was in evidence everywhere. The weather was bright and pleasant.

The city was early astir to prepare its welcome to the president, who passed a night of sound rest in his special train where a detail of police was on guard duty throughout the night. At 9:30 o'clock a committee of citizens called on the president and escorted him to Fort Sam Houston. Despite the early hour the entire route was lined with people who gave the president an enthusiastic welcome.

The president stood in his carriage bowing and smiling. When Fort Sam Houston was reached a salute of 21 guns was fired and President Roosevelt was received by General Jesse M. Lee, commanding the department of Texas. After a few minutes' chat with the officers the president reviewed the troops which paraded in full uniform.

Leaving Fort Sam Houston the party moved to the city, where 10,000 school children awaited the president at Travis park. When he entered the enclosure every child held aloft a tiny United States flag and waved it vigorously. The children sang "America," and the president bared his head and seemed to me pleased with the spectacle.

The president was here joined by an escort of honor made up of the veterans of the Grand Army of the Republic and United Confederate veterans. The procession then moved to the Alamo. The historic old fort was in gala attire and in the plaza beneath its walls a stand, covered with flags and bunting and bearing a large picture of the president, had been erected. The president with his escort, ascended the stand and delivered a speech.

The president was introduced by Hon. J. H. Kirkpatrick. The plaza was packed with people and his address was frequently interrupted with applause and cries of "That's right!" After finishing his speech the president was taken in charge by the Rough Riders who are holding their annual reunion here. He will be their guest throughout the afternoon. Luncheon will be had at the camp in the fair grounds enclosure and the president will not return to the city until late in the day. He will attend a banquet given in his honor at the Menger hotel tonight when he will deliver a farewell address. His train will then leave for Fort Worth, where exercises are planned for tomorrow. The president will then go on a hunting trip of several days' duration.

Seeks President's Pardon.

Lawton, Okla., April 8.—All arrangements to receive the president at Frederick have been made and many persons have already started for that point, from all sections of the territory. Geronima, now a prisoner of war on the Ft. Sill military reservation, left today for Frederick to plead with the president to grant him freedom.

MAN HELD FOR ASSAULT.

Serious Charge Is Made Against a Macon, Ga., Music Teacher.

Macon, Ga., April 8.—C. H. Hamner a music teacher in this city was locked up at a late hour last night upon a warrant charging him with attempted criminal assault upon the 10-year-old daughter of H. C. Parker, proprietor of a small grocery store in east Macon.

He was employed as the instructor of the child. The mother alleges that she heard the cries of her daughter, and upon entering the room where the teacher and pupil were, Hamner jumped from the room, after releasing the girl, and escaped.

Hamner was captured by a bicycle officer. He is at present in the police barracks. He resides in south Macon, and has a family.

Plain Talk to Railroads.

Montgomery, Ala., April 8.—Over the protest of President Comer, the Alabama railroad commission decided to go into a general revision of the Alabama rates at once. Evidence has been taken all the week on fertilizer rates, which was as far as Mr. Comer wished to go now, but the other outvoted him. This will likely prolong the hearing for some time. President Smith, of the Louisville and Nashville, was on the stand today, and told of the work of his road. He was told by President Comer that his road had maintained a lobby at the capitol for years and had, it was reported, dictated legislation.

Fireman Crushed to Death.

Valdosta, Ga., [illegible] Jackson, a popular and well known young man of this city, a fireman on the Georgia Southern and Florida railroad, was instantly killed here this morning in a collision between two locomotives. The wreck occurred about 4 o'clock. A light engine, in charge of Jackson, which was backing down the yard, struck a passenger engine, in charge of Hostler Freeman. The crew on the freight engine had no warning of the danger and before they could jump young Jackson was caught between the tender and cab and crushed to death.

Negro Dies on Gallows.

Charlotte, N. C., April 8.—Walter Partridge, a negro boy 20 years of age, was hanged at Fayetteville, N. C., for a criminal assault upon Mrs. Lillie I. Hales, a white woman. The negro's nerve did not desert him. He died from strangulation in a few minutes. Shortly after Partridge's crime a special bill was put through the legislature allowing a civil term of court to adjourn so as to hasten his trial.

Frenchmen Want Their Money.

Constantinople, April 8.—An imperial irade was issued today approving the French loan for satisfying the demands of the Syrian Railway company and the Constantinople Quay company, both French concerns. This, however, does not entirely satisfy the French embassy, which is insisting on a modification of the terms in conformity with its previous demands.

Falling Tree Kills Man.

Columbia, S. C., April 8.—Thomas J. Jackson, a young white man, was instantly killed yesterday near Bowman, Orangeburg county, by a tree falling upon him. Young Jackson was driving a wagon loaded with fertilizer when a tree was blown down upon him. He recently graduated from the Georgia-Alabama Business college at Macon, Ga.

Presbyterians Favor Union.

Nashville, Tenn., April 8.—Information has been received at Cumberland Presbyterian headquarters here that Wabash and Indiana and Miami, O., presbyteries have voted for union with the Presbyterian church. This makes 82 presbyteries that have declared for union. It requires only 44 to carry.

JACK THE RIPPER APPEARS IN GOTHAM

Mysterious Murder of Woman In a New York Hotel.

SHE WAS STABBED TO DEATH

Police Baffled at Tragedy and They Are Looking for a Person Similar to One Who Terrorized White Chapel District of London Years Ago.

New York, April 8.—Elements of mystery recalling the stories of Jack the Ripper who terrorized the White Chapel district in London years ago, were present in the sensational stabbing today in a Thirteenth street hotel of a young woman.

She died in a hospital a few hours after the stabbing.

A patron of the hotel whom the police put under arrest, although admitting he was in the woman's company a short time before she was injured, say he did not know how she received the wound that resulted in her death.

The woman, whose name was Mamie Wilson, was stabbed in the abdomen. The wound was a very long knife wound, for which the police are unable to account, and which the man under arrest protests did not belong to him.

The character of the cut was similar to that made on the victims of the London "Jack the Ripper."

The man under arrest is James Boye, a club steward. He told the police he was with the woman last night, but said that she had left him and he did not know how she was stabbed. When he was arrested it was found that seven of Boye's teeth had been knocked out and that one of his eyes had been blacked by a blow.

SEVENTEEN DEATHS IN ONE DAY

Cerebro-Spinal Meningitis Is Raging in New York—New Treatment.

New York, April 8.—Seventeen deaths from cerebro-spinal meningitis were reported during Thursday in Greater New York, making a total for the week thus far of 82. An average of 25 developing cases have been reported daily. A new treatment is being tried at Bellevue hospital. It consists of drawing off the fluid from the spinal canal. This is being done every other day and greatly relieves the patient. By the use of ice bags they are then kept in good condition and with little pain.

"The only question is," said one of the hospital staff, "whether we are getting all the discharge from the canal. We are not able to tell, because there is no X-ray strong enough to determine whether the fluid is clogged in the brain. It is believed that in the advanced cases it does not clog up.

BIG CANAL FOR OREGON.

This Improvement Will Mean Much for that State.

Portland, Ore., April 8.—The state of Oregon has delivered to Major W. C. Langfitt a deed conveying title to the government of the entire right of way for the Dalles-Celilo canal.

This great undertaking is a canal and locks around an obstruction in the Columbia river about 100 miles east of Portland. The construction of the canal will admit of transportation by water of almost the entire wheat crop of eastern Oregon, eastern Washington and Idaho, which last year amounted to about 45,000,000 bushels to the Pacific ocean.

The length of the water-way that will be opened to the traffic will be over 500 miles and will reach from the Pacific Ocean, to Lewiston, Idaho.

White Prisoners Break Jail.

Bainbridge, Ga., April 8.—Neal Sutton, whose sensational trial and conviction for the kidnapping and attempted assault upon little Alice Skelton, excited so much interest a short time ago, succeeded in breaking jail here last night after midnight, with two companions, Will Fish and John Tompkins, all white men.

NORTH GAINESVILLE OPPOSES CHARTER

Don't Like Idea of Being Taken Into the New City Territory

SO SPEAKERS WILL EXPLAIN

Attorney Robt. E. Davis and Mayor Thomas Will Address the People of North Gainesville Monday Night, and Explain Advantages of New Charter.

It seems that some people of North Gainesville, who own property in that thriving burg, do not appreciate the idea of the extension and amendment of charter of the city of Gainesville, which was passed in a meeting of the citizens at the court house Wednesday, and as a result Attorney Robert E. Davis and Major W. R. Thomas have consented to address the people of that suburb at North Gainesville Hall Monday evening at 7 o'clock on the proposed charter, with special reference to its relations to the people of North Gainesville.

As will be seen by advertisement in The Sun, the people of North Gainesville, feeling that they would be burdened with municipal taxation without representation, have taken steps to incorporate, but those who have advocated the proposed extension declare it will be a good thing for all suburbs, and those taken in will be benefited.

The people of North Gainesville are cordially invited to be present at the meeting Monday evening, as Messrs. Davis and Thomas will endeavor to explain fully the intentions and purposes of the order.

SWEARINGEN SELLS OUT.

Prominent Stockholder in Baird Hardware Co. Disposes of His Interest.

It will be a surprise to the people of Gainesville to learn that Thos. J. Swearingen, for many years connected with the Baird Hardware Company, has disposed of his interest in that firm. Mr. Swearingen has sold all his stock and interest in the business, and will be immediately relieved.

At a meeting of the directors of the company Saturday, W. B. Taylor, who has been secretary of the company since its organization, resigned, and was elected vice-president and treasurer, to succeed Mr Swearingen. W. T. Pound was elected secretary to fill the vacancy caused by the resignation of Mr. Taylor.

HAD TO HIDE IT

A mother wrote us recently that she had to keep Scott's Emulsion under lock and key—her children used to drink it whenever her back was turned. Strange that children should like something that is so good for them. It's usually the other way. Scott's Emulsion makes children comfortable, makes them fat and rosy-cheeked. Perhaps that's why they like it so much—they know it makes them feel good.

A PROFESSIONAL WALKER.

Dr. Sangston Kicks on the Proposition of Commodore Beall.

"Commodore Beall is a mighty good fellow, but he is too strong a proposition for me," remarked Dr. Sangston in a good-natured manner Friday, as he approached The Sun man with his tongue hanging down almost to his waist.

"You know I like the Commodore, for I can't help it," he continued, after gathering sufficient breath. "He is all right, but he believes in too much exercise. He made an appointment with me early this morning for a 'brief' walk, and so help me John Brown, he led me a dog's chase around by Millard Station and other points, making about eight miles—and then he calls that just an every-day, medium walk! If the Commodore wants anybody to join him again in a 'medium' walk he'll have to get some other fellow, for I'm just about done," concluded Dr. Sangston, as he sat down in an easy chair and asked Dr. Herzog to pass him a glass of ice water with a little lemon juice.

Commodore Beall is quite an athlete, and thinks nothing of getting out in the morning and walking four or five miles before breakfast. He declares it gives him an appetite, but Dr. Sangston says his appetite is good enough, and he will not again abide by the Commodore's suggestion.

A POLITICAL RALLY.

Colored People Will Get Together and Ratify Ticket Monday Evening.

There will likely be a "hot old time" among the colored politicians at Johnson's Hall Monday night, since the last meeting of the present municipal campaign will be held at that time.

The meeting will be called at 8 o'clock, and S. B. Willis, the colored politician who wields a rod of political influence, will preside. There are a great many colored people taking interest in this campaign, since there are three candidates for marshal and several for aldermen. The ticket as so far nominated endorses R. A. Becker for marshal.

The Sun has been requested to announce that this is the last meeting of the campaign, being held the day before the election, and at this meeting the ticket will be finally ratified.

A Dandy for Burns.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, as I am confident there is no better made. 'It is a dandy for burns.' Those who live on farms are especially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c, $1.00 bottle. Sold by W. M. Johnson.

Girl's Father Before Grand Jury.

New York, April 7.—J. Randolph Patterson, father of Nan Patterson, the show girl who is accused of killing Caesar Young, was summoned today to appear before the grand jury. It is stated that some of the letters found in the possession of Mrs. J. Morgan Smith in Cincinnati was from Patterson. Assistant District Attorney Rand today said that he expects nothing affecting the Patterson case will be done at Cincinnati until next week.

EARTHQUAKES.

The Great Ones Come Without Any Intelligible Warning.

Major Clarence E. Dutton of the United States army in his book on earthquakes says: "Great earthquakes come without any intelligible warning. It is true that such catastrophes have been preceded in a considerable number of instances by minor shocks and quivers and by ominous sounds, but these are far from implying necessarily a subsequent disaster, for they occur a hundred times without further consequence. It is only after the great shake that the mind recurs to them as its forerunners. Much is written about earthquake weather, about a certain indescribable electric condition of the atmosphere, about the sensitive and alarmed condition of animals, about the erratic flights and actions of birds just before earthquakes. If any such phenomena really manifest themselves as preliminaries to an earthquake all that can be said about them is that they are as mysterious to the seismologist as to everybody else. But the testimony in support of them, though considerable in amount, is vague in character. When carefully scrutinized it leaves the impression that it is the outcome of imagination and not real observation."

Concerning the great quake on the southern slope of Mauna Loa, in the Hawaiian Islands, in April, 1868, Major Dutton writes: "These shocks, at first light, continued to increase in force for six days. They came at intervals of only a few minutes, and every day there were many hundreds of them. On April 2 they reached their greatest violence, and one shock in particular is described as being of the most terrible nature. The ground rolled in great waves, rapidly swaying in every conceivable direction, including vertical. Stone houses and walls, chimneys and fragments of structures which prior shocks might have left standing were hurled down completely. Wooden houses were flung from their foundations. The rolling earth opened in great cracks in the crests of the waves, which closed together in the troughs. To stand was impossible for either beasts or men. Lying on the ground, it was at times necessary to keep the arms outspread to prevent being rolled over."

A striking thing about this earthquake, according to the same author, was that, as in other volcanic quakes, it was narrowly localized. The northern parts of the island were but slightly shaken. At Hilo, on the eastern flank, a single structure suffered material damage. Likewise in the eruption of Mount Ararat on June 20, 1840, the village at its base was destroyed. Forty miles distant little damage was done. In the eruption of Krakatoa, in 1883, half an island was blown up, yet at Batavia, ninety miles away, the earthquake vibrations were inconsiderable.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for lagrippe," say Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by all druggists.

Antiquity of the Umbrella.

No one knows whether the umbrella was originally used as a defense against rain or a screen from the sun, but it seems probable that the first umbrellas were sunshades. In countries where very little clothing is worn rain does not make much difference, but the sun is a power. Why shouldn't the palm leaf be the first sunshade, with its ribs and handles to order? It hints at the umbrella as well as the fan. Travelers among the Ainos of Japan often make temporary sunshades of gigantic dock leaves, which are sometimes six feet high, large enough for an account of Gulliver. The umbrella has a very great antiquity. The word itself means a "little shadow," showing that it was named for its protection from the sun in this case. Horace says, "Among the military standards the sun beholds an Egyptian canopy."—Irish Times.

SSS THE BEST TONIC

When the system gets debilitated and in a run-down condition it needs a tonic and there has never been one discovered that is the equal of S. S. S. It is especially adapted for a systemic remedy, because it contains no strong minerals to derange the stomach and digestion, and affect the liver and bowels. It is made entirely of roots, herbs and barks selected for their purifying and healing qualities, and possesses just the properties that are needed to restore to the body strong robust health. When the blood becomes impure and clogged with waste matters and poisons the body does not receive sufficient nourishment and suffers from debility, weakness, sleeplessness, nervousness, loss of appetite, bad digestion and many other disagreeable symptoms of a disordered blood circulation, and if it is not corrected some form of malignant fever or other dangerous disorder will follow. S. S. S. builds up the broken down constitution, clears the blood of all poisons and impurities and makes it strong and healthy. The nerves are restored to a calm restful state, refreshing sleep is had again, the appetite returns and the whole system is toned up by this great remedy. S. S. S. is a blood purifier and tonic and acts promptly in this run-down depleted condition of the system. Book on the blood and medical advice furnished by our physicians, without charge.

I have used your S. S. S. and found it to be an excellent tonic to build up the general health and give tone and strength to the system. I have used other things highly recommended, but S. S. S. did me more good than everything else combined. As to its tonic properties it gives a splendid appetite, refreshing sleep, and the system undergoes a general building up under its invigorating influence. 548 Woodland Ave., Warren, O. MRS. The ladies of the He ping Hands Society of the Prysbyterian church who propose to give a bazaar and hot supper at the opera house on Tuesday and Wednesday, the 11th and 12th inst., are anticipating a fine success, both socially and financially. The ladies have secured a number of fine chickens and turkeys, with the result that the menu will comprise roast chicken, turkey, creamed potatoes, vegetables, ice cream, coffee, tea, assorted cakes, etc—in fact a first-class hot supper, which will be served at a very reasonable price. There will be also many fancy articles, donated by various ladies, which will be disposed of at a price reasonable, and the ladies hope to greet many of their friends on this occasion. The function will begin at 5 o'clock in the afternoon of each day.

After several weeks spent in this city, where he has been winding up his business affairs, W. P. Lee departed yesterday for Savannah, Ga., where he will join his family, who have been in that city for the past few months. Mr. Lee, who has been engaged in the crosstie contracting business at Sanderson up to a year ago, has always kept his family here on account of the superior advantages afforded from an educational standpoint. A little more than a year ago, however, his wife becoming ill, the family was moved to Brunswick, thence to Savannah. Mr. Lee has many friends here who regret exceedingly to see him leave, as he has always manifested a great interest in Gainesville and its people. He will engage in the railroad contracting business in Georgia, but it is hoped that after a while he will decide to return to Florida and make Gainesville his home. He has the best wishes of his friends here.

Millionairess Marries Hotel Clerk.

Chicago, April 8.—A dispatch from Hot Springs Ark., says that Miss Pearl White, daughter of W. D. White, the millionaire manufacturer of Cleveland and former congressman, has been secretly married here at St. Luke's Episcopal church to James T. Bancroft who three weeks ago was a clerk behind the desk of one of the prominent hotels of Palm Beach, Fla. The wedding was the culmination of a romance which started with love at first sight. Bancroft gave up his position on the second day after meeting Miss White. His home is in Brookline, Mass., and he is 25 years of age. His parents are wealthy. The couple have left for the bride's home.

Banker Committed Suicide.

Lynn, Mass., April 8.—Shortly after the beginning of the autopsy of the body of David K. Phillips, the wealthy banker of Swamp Scott, which was found on the beach there yesterday it was discovered that Phillips' waistcoat containing his watch had been found on the beach near where the body was discovered. These articles were missing last night and this fact led the family of Phillips to ask for an autopsy, foul play being suspected. After the autopsy today the medical examiner announced that the banker came to his death by suicide by drowning. There were no evidences of foul play.

Found Bodies in Ruins.

Richmond, Va., April 7.—On Saturday the charred remains of Mrs. W. G. Thompson and her two children were found in the ruins of their burned home at Shadwell, Albemarle county. The husband of the woman was arrested on the charge of murdering the man. Shradwell is near Charlottesville, where a former mayor, J. Samuel McCue, was recently convicted of and executed for wife-murder.

May Have Boy's Assailant.

The sister attributed the reunion to a prayer, declaring that a captain in the Austrian army, and the the finding of her lost brother.

A Story of Sir Robert Ball.

Sir Robert Ball, the noted British astronomer, on one occasion went to a remote town in Ireland to lecture on his favorite topic. Arriving at the station, he looked for the expected conveyance, but found none. After all the other passengers had disappeared a man stepped up and said, "Maybe you're Sir Robert Ball?" On receiving an affirmative reply the man hastily apologized, saying, "Sure, your honor, I'm sorry I kept you waiting, but I was tould to look for an intellectual gintleman." Sir Robert thought that under the circumstances it would be better not to inquire what was the man's idea of intellectuality.

It is hoped that the new canal commission will stir up a different kind of dirt from the old one.

Snow in Gainesville, Ga., on Thursday would indicate that winter is still spooning around gentle spring.

Carnegie asserts that a rich man is a slave, yet there are thousands who would like to be placed in bondage.

The Russian internal loan was oversubscribed, says St. Petersburg. But such infernal yarns always come from that source.

President Roosevelt has reached San Antonio, Texas, and will hie himself to the jungle to chase the gay and festive lion and bears.

Governor Hanley of Indiana says he never saw the inside of a saloon. There is a good hint for the boys to ask him to take something.

The Federation of Woman's Clubs is discussing "What is the best preventive for divorce?" If answers were in order we might suggest three home-cooked meals a day and less clubbing.

Texas is experiencing a change and the Republicans are getting more numerous. It was stated that there were two at Dallas when the President arrived—himself and Secretary Loeb.

Society is way ahead of the United States Senate. A lady worth sixty millions couldn't get into society in Philadelphia, while in Michigan and Wisconsin less than a tenth of that sum will secure a man a life sit in the Senate.

Dr. Osler's idea that at the age of 60 years a man is incapacitated for labor is proven to be false by the force of compositors on The Sun. The united ages of three of them is 181 years, averaging over 60 years each, and the oldest one works without wearing spectacles.

The people of Florida seldom build any sort of a house without a porch, and some of the finest residences have very commodious porches. And there is nothing more enjoyable than sitting on the porch and enjoying the pure atmosphere. If people would make it a point to live on the porch more, there would not be so many complaining of poor health. People who are in poor health should sit on the porch and take a sun bath every day. Get a hammock, read a little and sleep a little and you will feel better for it.

The large orders for locomotives and cars and other railroad equipments for many of the Florida roads would indicate a degree of prosperity that is indeed flattering. As soon as the railroads are relieved of the great passenger traffic the products of the soil are ready to be carried to the markets of the North and East. The winter just passed has been one that caused considerable alarm to tillers of the soil, but the crops of Florida are so diversified that if one thing fails there is another to take its place. Really our resources are not yet half developed, and there is a chance for many new industries in the years to come.

THE STATE HORTICULTURAL SOCIETY.

The eighteenth annual meeting of the Florida State Horticultural Society will be held in Jacksonville, commencing the evening of the 9th of May and continuing the 10th, 11th and 12th; and it is earnestly hoped that this meeting will be the largest in the history of the society.

The Jacksonville Board of Trade has extended to the society the use of their magnificent auditorium in which to hold the meetings, and are making preparations to entertain the members in their usual liberal and hospitable manner.

The transportation companies have made a rate of one fare, plus 25c for the round trip, but members must have a certificate of membership which is furnished by the society, to surrender to the ticket agent before the ticket will be issued at the reduced rate. So it behooves members to write early for their certificates, which can be had by sending $1 to the secretary, Mr. E. O. Painter, Jacksonville, Fla.

The annual reports of this society are alone worth more than the $1 charged for membership fees, as they contain the experience of some of the best horticulturists and agriculturists in the State, including valuable papers from some of our scientific men.

The society is doing a good work and needs the support of every one interested in the development of our State. Instead of 400 members, it should have 4,000. You can help it by sending $1 to E. O. Painter, secretary, Jacksonville, Fla.

ELECTRICITY VS. STEAM.

During the past 100 years steam transportation has revolutionized the carrying trade of the world, but it is destined to become obsolete. Electricity is to become the power of the future and the thousands of water powers that are now running to waste will yet furnish power for the driving of electric cars all over the country. The telegraph is a recent invention. The telephone, now so necessary to the business of the country, was an undreamed of luxury only a few years ago. We are now dispensing with wires in the telegraph business, and ships at sea can communicate with the land and with each other. What the future will bring forth we are unable to say, but it is safe to predict that our grandchildren will look back upon our age of seemingly such wonderful achievements as one of very primitive methods. We feel that we are reaching the limit, but 100 years hence we will be considered about on a par with our grandfathers, who rode across the country in thoroughbred stage coaches and went to mill with a stone in one end of the bag of grist. What a change 100 years makes in the methods and customs of the people.

With the distinguished occupant of the White House hunting ferocious animals in the Western wilds, and the Secretary of State cruising in the Mediterranean, the government is running by acquired momentum in its accustomed grooves. There are a few hundred clerks in Washington who are the masters and slaves of routine. Through them the government revolves like a planet in a frictionless ether. Revenues are collected, supplies are paid for, employes are paid off, the mails are received and distributed, patents, pensions and trade marks are issued, investigations are made by the Departments of Agriculture and of Commerce and Labor, the Army and Navy (the big stick) peacefully practice in times of peace the arts of war. More and more it is forced upon us that we are a big country, and if it were true two thousand years ago that "no man liveth to himself and no man dieth to himself," how much truer must it be of the heirs of the ages equipped with gunpowder, lightning and printing presses. We believe that Cuba, the Philippines and Spain have been benefited by the peace which we compelled and that San Domingo has been helped to an era or interim of peace and honesty through administrative interference. The Monroe Doctrine, first proclaimed when we had not a tithe of our present strength, has assumed a broader significance and acquiescence.

GIRL KILLS HER SWEETHEART.

Then Shoots Herself—Trouble Supposed To Be Lovers' Quarrel.

Huntsville, Ala., April 7.—H. A. Ballard, a cotton oil employee, was fatally wounded this morning by Miss Ona Hardie, his sweetheart, who followed her attack upon him by shooting herself through the heart.

The tragedy is believed to have resulted from a lovers' quarrel.

The woman came to Huntsville this morning, purchased a pistol and went to Ballard's boarding house, called him to the door and opened fire on him, the bullet passed into his left breast and he ran into the kitchen and fell.

The woman killed herself on the front porch.

She was 21 years old and was recently from Tennessee.

Killed by Overdose of Laudanum.

Huntsville, Ala., April 7.—Miss Sue Shook of Gurley, sister-in-law of Editor J. W. Roberts, of the Huntsville Republican, died from an overdose of laudanum. Miss Shook had been suffering from a toothache and purchased an ounce of the drug, which she took at one dose. Her condition was not discovered for several hours and then all efforts to arouse her failed. She was 35 years old.

Germany Loans Turkey Money.

Constantinople, April 7.—An imperial irade recently issued sanctions the conclusion of a loan in Germany to pay for war material. It is understood that immediate orders will be given to the Krupp company for 62 batteries of field guns and three batteries of 15 centimeter howitzers at an approximate cost of $7,500,000. An irade similarly approving of a French loan is expected to be issued immediately.

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

A cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff! She may wash her scalp every day, and yet have dandruff her hair long, accompanied by falling hair, etc. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy as nature intended. Destroy the cause and you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

COLORED BAPTIST CONVENTION

Interesting Session Friday—Addresses by Pres. Sales and Rev. Rogers.

General Baptist State Convention was called to order Friday 10 a. m., Dr. J. B. Hankerson in the chair.

The journal of the last meeting was read and adopted, and then a committee of seven was appointed on nomination of officials. The reports of the several committees were listened to.

Rev. J. B. Hankerson, D. D., was reelected president of the convention, Rev. W. A. Wilkerson vice-president, Rev. J. B. Lake secretary. This being only a partial report of the nominating committee, the remainder of the report was dispensed with until the afternoon session.

The convention was then favored with music by the choir. A collection was taken up, and the benediction was pronounced by Rev. J. T. Mason.

Afternoon Session.

The session opened with prayer service, conducted by Rev. J. B. Reese. This service was conducted with quite a deal of earnestness.

At the close of the devotions, the president came to the chair and announced the evening session open for regular business. Quite a number of letters were collected and the amount of money turned in to the convention was quite flattering.

The convention was next favored with an address by Rev. F. A. Wells. After this Rev. Sprattling, D. D., was introduced and made quite an excellent address in favor of the Central City College of Georgia. At the close of his speech he was allowed to solicit a collection for his work. This he did to the amount of $4 00.

The convention after this received several letters, and a sweet selection was sung and a very fervent prayer was offered by Rev. John Jamison. The benediction was pronounced and the meeting was adjourned until 7:30 p. m.

Evening Session.

The night session was opened with singing and prayer. Prof. L. C. Jones, A. M., president of the Florida Institute, Prof. N. W. Collier, A. M., president of the Florida Baptist College, in company with President Sale of the Atlanta Baptist College, Prof. J. T. Mason of the West Floride Academy and Dr. Rogers of the white Baptist State Convention were introduced to the meeting.

President Sale of the Atlanta Baptist College, Atlanta, Ga., and Dr. Rogers of this city delivered most excellent addresses.

Owing to the lateness of the hour, the other three presidents above named deferred their addresses until Sunday 11 a. m.

A collection was taken to the amount of $20. It was received by Profs. L. C. Jones and N. W. Collier.

After this the benediction was pronounced by the president. The messengers were then asked to remain and have refreshments served. This they did to their heart's content.

Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine E. H. Wolfe of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." All druggists guarantee them at 50c.

DECREASE IN TRAIN WRECKS.

Reports Show that Fewer People Killed In Last Quarter.

Washington, April 8.—A report of the railroad accidents in the United States during the months of October and November and December, 1904, has been compiled by the interstate commerce commission.

It shows that in that quarter 53 passengers and 189 employes were killed and 1,430 passengers and 1,868 employes injured; a total of 242 persons killed and 3,298 injured in train accidents.

Other accidents to passengers and employes, not the result of collisions or derailments, bring the total number of casualties up to 14,978—951 killed and 14,027 injured.

The report indicates a decrease of 175 killed and 624 injured, as compared with the last preceding quarter. CHASING A WILD MAN.

People of Oklahoma Are Being Harassed by Strange Creature.

Fort Worth, Tex., April 8.—A special From Lawton, Okla., says:

A wild man, of hideous appearance, ragged garments, emaciated features and lacerated body, has for the past two weeks been terrorizing the citizens of the southern and southwestern portions of the Chickasaw nation. On several ocasions he has assaulted women and children and injured men in duels who sought to capture him restraining him from other operations.

He invariably makes his escape and shortly after turns up in some other section of the country and renews his operations. Two deputy United States marshals and a posse of citizens recently came in touch with him in a heavy thicket, but he made good his escape. All subsequent efforts at capture have been futile. No one knows his name nor where he hails from.

The Bismillah Ceremony.

A little Moslem when she is four years four months old goes through the "name of God," or Bismillah, ceremony, which begins her real life. She is dressed in cloth of gold, with a veil and wreath of flowers, and friends are invited to salute the little queen. She sits on a gold cushion, which must be borrowed if she hasn't one, and all the rest sit on the floor. Then an old mollah recites very slowly a certain verse from the Koran, which is also written in saffron on a silver plate Bibi holds in her hand. She runs her fingers over the words and stammers them after him. "Say it now, Bibi. Be a good girl, then you shall see your presents." Soon they all cry: "Shabash! Shabash! Wah! Wah!" and the ceremony of the little girl's first lesson in reading, writing and religion is over. She salaams mamma, then shows her presents to her sahelis (girl friends).—Edmund Russell in Everybody's.

English Prison Pits.

Prison pits were vaults in which criminals in England were kept at night, chained together. There was one at Bristol which was in use as late at 1815. Down eighteen steps, it was only seventeen feet in diameter by nine feet high, and seventeen men were consigned to it every night. Even more typical was Warwick jail pit, which was occupied at least until 1797. It was an octagonal dungeon twenty-one feet in diameter and almost nineteen feet underground. In the middle was a cesspool, and beside it ran a stream of water which served the prisoners for drinking purposes. To this awful cell forty-two men were consigned every afternoon at 3:45, to remain there until after daylight the following morning. The inmates had to sleep on their sides, and their jailer never visited them without guarding himself with an antidote against sickness.

The Deodand.

Deodand (Latin, Deo dandus, to be given to God) was formerly in English law any agent or instrument by which a person was accidentally killed and which for that reason was to be given to God—that is, forfeited to the king to be applied to pious uses and its value distributed in alms by his high almoner.

Thus a kind of expiation was arranged for such fatal accidents as might be due to the fall of a ladder, the toss of a bull or the heavy wheel of a cart, when the victim was, without any fault of his own, deprived of the last sacraments of the church. The right to these deodands, which were abolished in 1846, was frequently granted to individuals or annexed to lands.

They are mentioned in "Hudibras:"

For love should, like a deodand,
Still fall to the owner of the land.

A Story of Tennyson.

Dante Rossetti used to tell a story of Tennyson, with whom he was walking one sunny summer night through High Holborn. They passed a building brilliantly lighted up and from which issued the sounds of joyous music. "What is that place?" asked the bard. "It is called," replied Rossetti, "the Holborn casino." "I should like to look in," pursued the bard, "only I should be at once surrounded by a crew of groundlings, who would mob and pester and jostle me." "My dear sir," quietly remarked Dante, "if you were to get on one of the tables, announce your name and recite three of your poetic masterpieces into the bargain probably not 2 per cent of the audience would have the slightest idea of who you are."

Women find quick relief in Dr. Thacher's Liver and Blood Syrup.

Such Is Fame.

At the time when Napoleon was the most prominent figure in Europe one man at least was little impressed with his greatness. The conqueror's name actually slipped his mind, so slightly did his career concern the world that for the artist centered in his studio.

Edgar Quinet related that when he went to Germany he visited the old sculptor, Dannecker.

"We talked," he says, "of art, and the sculptor was eloquent over his theories. Suddenly, wishing to fix a date, he stopped, reflected and finally said:

"'I think it was in the time of that man—what is his name? You know the man. The one who has won so many battles. I've forgotten his name You must know it.'

"'Are you speaking of Napoleon?' I asked.

"'Yes, yes. That is it,' cried the artist and went on with his interrupted statement without giving the incident a second thought."

READ THIS.

Stevenson, Ala., June 6, 1901.

Dr E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very serious nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctors said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can say for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am

Yours truly,
